## ENLIGHTENMENT SEMINAR ON SICKLE CELL

We are publishers of *African Sickle Cell News & World Report*, a quarterly magazine, which aims to give hope and encouragement to people living with sickle cell as well as sound a note of caution to others.

It is estimated that 1 in 4 Nigerians (including your school population) harbours the sickle cell trait; unfortunately, the vast majority are ignorant of their status and of its implications. By holding this seminar, your institution would be empowering and forearming your students as future parents. You would also helping in the grand effort to minimise the incidence of sickle cell in this country.

We seek permission to give a seminar on sickle cell at your school. Every student would benefit greatly from this seminar.

Each participating student pays N700.00 for the seminar and takes home a copy of the magazine.

Thank you.

**Yours Faithfully,**

**Ayoola Olajide (Editor) 08033199946**
